**ELGA Side Event in collaboration with the IUCN WCEL Ethics Specialist Group  
Wednesday, 4 July, 11.30-13.30, Insight Institute, Collins Bldg., 22 Richmond St**

## **Your Invitation to Explore the Transformation**

# **What is Ecological Law and Governance?**

Registered participants of the 2018 IUCN Academy of Environmental Law Colloquium are cordially invited to attend this workshop to discuss methodological challenges for transforming law and governance.

While “innovation, risk and resilience” can be perceived as external drivers for “The Transformation of Environmental Law and Governance”, this workshop looks at internal drivers: What are the central objectives and what new methodologies may be required? The Ecological Law and Governance Association (ELGA) is a new global network of lawyers and organisations working towards transformational change. ELGA members will make presentations on progress made to date and lead a discussion on practical and conceptual issues of ecological law and governance.

We look forward to seeing you on 4 July!

*Prof Klaus Bosselmann*  
Chair, ELGA  
Chair, IUCN WCEL ESG  
University of Auckland

*Dr Kathryn Gwiazdon*  
Steering Committee, ELGA
